"Tribal people in Central India are getting dispossessed of their land fast, and sucked into a civil war that is probably the worst war there's ever been in India, even though it's scarcely mentioned in the News."
Felix Padel

Felix is an activist-anthropologist who has worked in India's tribal areas for over 30 years.

His book 'Out of this earth: East India Adivasis and the Aluminium Cartel' has woken many people in India to the dangers of rampant mining/metal production. Another book is coming soon – 'Ecology, Economy: Quest for a socially informed connection'.
