

Narrated by John Hurt

MORE THAN HONEY

One in three mouthfuls of food is dependent on pollination

A Film by Marcus Imhoof

Showing at

Theatr Mwldan Cardigan

6 pm 14th to 23rd October

For tickets and confirmation of the times go to

www.mwldan.co.uk

More Than Honey takes in all the things hurting bees - overbreeding, pesticides, farming practices that upset their life cycles. By the time we see Chinese workers slowly and painfully pollinate trees by hand, unable to perform a fraction of one hive's work, it's clear that Imhoof is issuing a warning. Without any preachiness, this magically beautiful film urges us to take better care of the bees, and honor the irreplaceable things that they do for us.
