Winner of UK Green Film Festival Best Film Award

Can we imagine a film that would change the way people look at the ocean? Can we explain simply, to everyone, the greatest natural mystery of our planet? And lastly, can we help our children believe in a better and more sustainable world tomorrow?

This is the triple challenge of a new cinema adventure signed by Yann Arthus-Bertrand and editor-in-chief Michael Pitiot. Thanks to its astonishing photography, the film takes us on a magnificent and unprecedented journey into the heart of the least known regions of our planet.
